BERLIN, May 20.—The German government tore the veil of mystery from the fate of the Egyptian liner Zamzam today with announcement she had been halted, searched and sunk on the high seas and all aboard—including scores of Americans—rescued and taken prisoner.

A brief official statement accused the Zamzam of carrying contraband designed for the use of British forces and the so-called "Free French" detachments of General Charles De Gaulle in Africa.

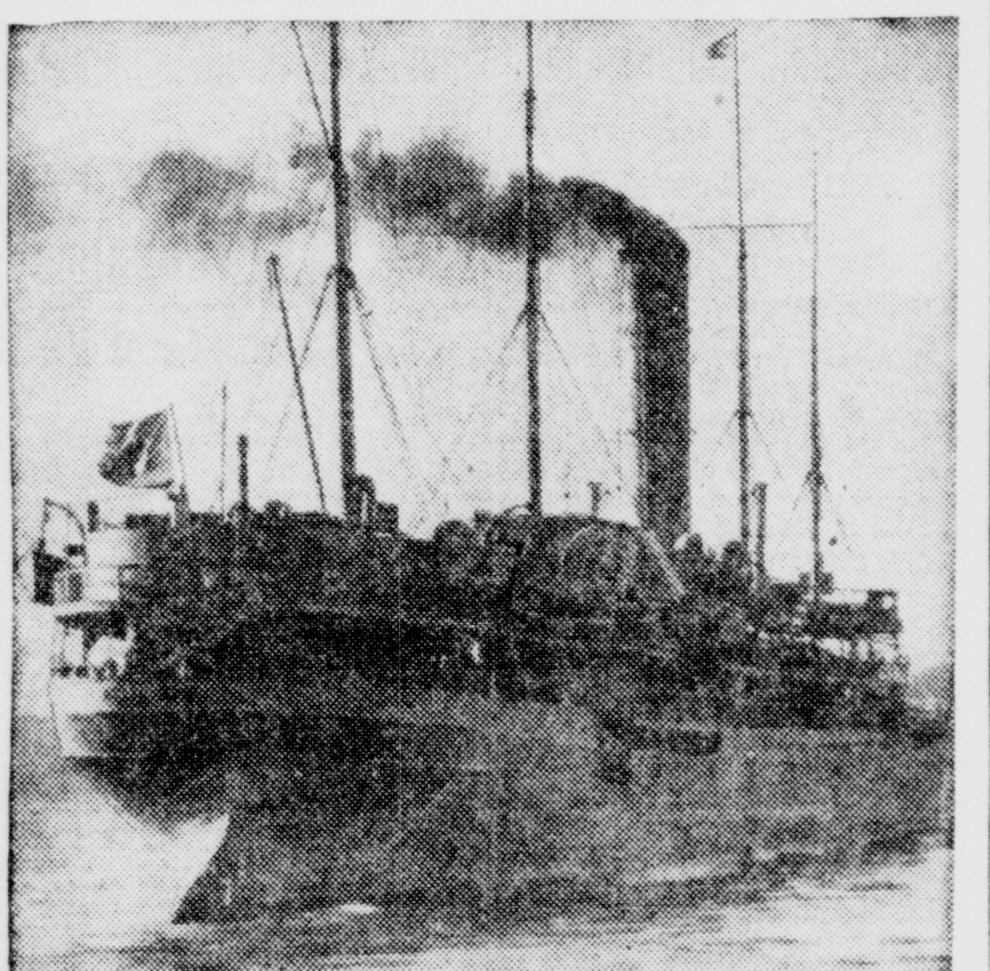

Exact whereabouts of the 140 or more Americans who sailed from New York aboard the Zamzam for medical and ambulance service with the DeGaulle forces or as missionaries in darkest Africa were not known.

Reported Landed

They, along with other passengers and all the members of the Zamzam's crew, were landed "somewhere in German-occupied territory."

Fate of 120 Americans, most of them Protestant and Catholic missionaries and volunteer ambulance drivers, aboard the Egyptian steamer Zamzam, may be cleared up by Berlin's report today. Cause of the sinking, somewhere between Pernambuco, Brazil, and Capetown, South Africa, also remained a mystery. The vessel, en route from New York to Alexandria, Egypt, carried 201 passengers. The ambulance crew was en route to Egypt for service with British and "Free French" forces. The ambulance drivers, left to right, front row, Charles McCarthy of Weston, Mass.; Charles L. Harris and John W. Ryan of Newton, Mass.; P. J. Vicovari of New York; F. W. Hoeng, Captain William A. Widener of the U. S. Army, and G. O. Tichenor of Maplewood, N. J. Back row, left to right, are W. ### PA NEW OBSERVES

Observance of the Memorial Day season will be formally opened in New Castle on next Sunday. This will be the first Memorial Day to be observed in Lawrence county without the presence of any Civil War veterans. The last veterans died during the past year.

Out in the fields of Lawrence county farms a lot of cute looking little lambs are to be seen these days. And the sheep, up until today, appeared to be a trifle cool with their wool sheared off for the season.

Huge quantities of seeds are being released from maple trees of some varieties in the city at the present time. Under some trees it looks like a snow storm had occurred.

New York City is getting a supply of new buses. During the past week or so, quite a number of the new buses have gone through to the metropolis, being driven overland from the factory to the big city.

Numerous times recently it has been mentioned to Pa New that cars are parked along streets in such a manner as to obscure the "Stop" sign at the intersecting streets for the car approaching on the stop thoroughfare. Investigation shows that in numerous instances this is found to be the case. Parking in front of stop signs apparently should be prohibited, if the signs are to be effective.

### Thanksgiving To Return To Old Date Beginning In 1942

BULLETIN  
(International News Service)

WASHINGTON, May 20.—President Roosevelt confessed today that his experiment of advancing Thanksgiving day one week has been a failure.

So far as the federal government is concerned, Mr. Roosevelt said, Thanksgiving again will be observed on its old date—the fourth Thursday in November—starting in 1942. It is too late to change the date this year and the holiday will be observed by the federal government and a large number of states on the third Thursday in November.

The president recalled that he set up the date one week to help the nation's merchants who complained that the proximity of Thanksgiving to Christmas hurt retail sales. Mr. Roosevelt reported that advancing the date has not helped retail sales volume.

### Independence Of Iceland Declared Says Berlin Report

BERLIN, May 20.—Iceland, which Great Britain took under its protection shortly after the outbreak of war, was reported today to have declared its independence from Denmark.

Formal action was taken, disavowing any allegiance to King Christian of Denmark and naming an independent governor for the island.

EDITOR'S NOTE: An independent movement developed in Iceland soon after the German occupation of Denmark but formal action making the break official had not been taken.

NEW YORK, May 20.—Over 100,000 miners in the hard coal fields of Pennsylvania returned to work in the pits today following the initialing of an agreement between C. I. O.'s United Mine Workers and Anthracite Operators calling for wage increases and vacation payments.

With the adjustment of the hard coal controversy out of the way after a one-day work stoppage, UMW officials and representatives of the operators resumed conferences to southern and northern bituminous day in an effort to break the wage deadlock in the soft coal negotiations.

If no agreement is reached by Thursday the soft coal conferees will go to Washington to meet Friday with William H. Davis of the national defense mediation board. The union's policy committee has withheld its vote on the question of a stoppage in the Appalachian mines pending outcome of current negotiations.

CAIRO, May 20.—British quarters in Cairo admitted today that German forces have recaptured Fort Capuzzo, just west of the Egyptian-Libyan frontier.

The fort was taken by the Nazis during stiff fighting along the entire border region, informed circles said. Meanwhile, preparations were complete for the formal surrender of the Duke of Aosta, Italian Viceroy of Ethiopia, and some 38,000 Italian and native troops who were forced to concede defeat after being trapped by the British at Amba Alagi.

Seven thousand of these troops are Italians.

Surrender Ceremonial

In reality the Italians gave in yesterday, but they were given one day's grace to gather together their wounded and complete preparations for the ceremony of a ceremonial surrender at noon today.

The British granted the postponement to comply with a request by the Duke of Aosta that he be the "last to leave" Amba Alagi, fall of which leaves the Italians in control of only two widely separated Ethiopian areas—the Jimma region in the south and the Gondar area to the northwest.

British quarters in Cairo were jubilant over the newest military success at Amba Alagi, which they

### Call 5,349 Men Between June 11-20 In Pennsylvania

HARRISBURG, May 20.—Pennsylvania's 422 local Selective Service Boards today were asked by the U. S. War Department to furnish 5,349 men for one year of military training between June 11 and June 20.

The draftees—5,022 white and 327 Negro—will report for induction at Ft. Meade, Md., near Cumberland, Pa., and Camp Lee, Va.

Dr. William Mather Lewis, state Selective Service director, explained that this quota is a part of the 18,967 men who have been directed to report to army examination stations for final physical examinations between May 21 and June 21.

### Information On U. S. Passengers Taken From Zamzam Asked

(International News Service)

WASHINGTON, May 20.—The state department today cabled American Charge D'Affaires Leland B. Morris at Berlin to request the German government for information concerning the whereabouts of American passengers taken off the Egyptian liner Zamzam.

The department took this action after receiving press reports telling of an official German government announcement that the ship had been sunk by a sea raider and that all persons aboard had been landed "somewhere in German occupied territory."

Pending receipt of official information the state department refused to make any comment on the incident although a spokesman made the unofficial observation that the German government presumably would release all the American passengers.

Only U. S. Action

Apart from making arrangements with the German government for the return home of the Americans, the state department did not contemplate any other action in connection with the sinking of the ship.

On the basis of the Berlin announcement, officials felt that Germany apparently had acted within the rules of international law in the sinking of the vessel. The German raider apparently had stopped the ship, examined it for contraband and having found that its cargo consisted of at least 50 per cent of contraband goods had removed the passengers safely before sinking the ship.

Germany has taken over the British contraband list which covers almost every item that might conceivably be used for war purposes, including ambulance trucks. In view of the fact that the Zamzam was carrying a considerable number of these trucks, it was felt that the Germans probably were within their rights in sinking the ship.

LONDON, May 20.—Disguised in New Zealand battle dress, 1,500 German troops landed in Crete by parachute, glider and troop carrier today, ushering in the first major battle between British forces and Nazi soldiers of the air.

Reporting to the house of commons on what he described as a "serious battle" on the Greek island which is now an Anglo-Grecian stronghold, Prime Minister Winston Churchill declared that the situation was well in hand and that German attempts to capture an R. A. F. airfield had failed.

"After a good deal of intense bombing," Churchill said, "an attack in great strength was launched by German forces against the island of Crete.

One strong enemy detachment is still at large, Churchill said, but most of the other parties have been rounded up.

LONDON, May 20.—"Free French" forces commanded by Gen. Charles De Gaulle in far-flung sections of Africa rushed preparations today to defy the Vichy government of Marshal Henri Philippe Petain.

Open warfare between the Vichy regime and the "Free French colonies" threatened as a result of a threat by the Petain government to regain these African possessions.

EDITOR'S NOTE: Presaging a possible rapid spread of warfare, a Vichy declaration indicated the government is about to attempt to regain the "dissident" areas.

LONDON, May 20.—A tremendous battle for possession of the Greek Mediterranean island of Crete raged today as German parachute troops landed there in "great strength."

(A communique issued by the British middle east command in Cairo stated: "Early this morning German parachutists and air-borne troops attempted to secure a footing in Crete. A number already have been accounted for.")

Informed British quarters, receiving sketchy reports of the fighting indicated the attack had been launched by the greatest force of air-borne soldiers yet known to modern warfare.

Covered by dive-bombers that poured down high explosives from Great altitudes, the German forces were reported to have parachuted to earth in stupendous numbers.

Attack Is Sudden

Savage hand-to-hand fighting was believed to be in progress as the Nazi parachutists engaged Greek and British defenders of the island.

The sudden attack—which developed like a bolt from the blue—bore out German warnings that a new and violent stage of warfare was about to begin after the recent relative respite from land action.

British sources were confident, however, that the British, New Zealand and Greek forces massed on the island would put up a "stern and resolute resistance."

The assault, which was reported raging without abatement, was de—

WASHINGTON, May 20.—Great Britain's plans for winning the war are now based on the expectation of America's eventual entry into the conflict, it was learned today.

American officials in close touch with the European situation have reason to believe Britain's leaders no longer consider it likely that Great Britain can achieve a decisive military victory over Germany without American participation.

Having reached this conclusion, the British government is understood to be basing its major war strategy policy on holding out against Germany until the United States is fully prepared to enter the conflict.

**Expect U. S. Entry**  
The British leaders believe, rightly or wrongly, that once it becomes apparent to the American people Britain cannot win the war without American participation, this country will throw its entire weight into the conflict.

No effort has been made by the American government recently to discourage the British belief that this country eventually will enter the war. On the contrary, the statements of nearly every member of the cabinet, including Secretaries Hull, Stimson, Knox and Ickes, are generally viewed in Washington as tending to confirm the British belief.

While no formal assurances have been given the British government that this country will enter the war, high British quarters are known to regard the recent statements of administration spokesmen as indicating clearly that this government will seek to bring about American entry into the war if that step is considered necessary to assure a British victory.

The belief also prevails in authoritative American quarters that the British eventually will urge the United States to send another expeditionary force abroad.

## TERRIFIC ATTACK BY NAZI 'CHUTE TROOPS ON CRETE

(Continued From Page One)

described by informed quarters as probably the largest deployment of parachute troop forces ever undertaken in modern warfare.

The new attack was revealed by informed London quarters studying a report from the middle east. "A German parachute troop attack on Crete is being made," they declared.

### Dive Bombing Raids

Reports received in London indicated the attacking parachutists are being covered by high altitude dive bombing raids on the island, where the Greek king, George II, and his government fled just before the fall of Athens.

It was from Crete that the Greek government announced it would continue its struggle against the Nazis despite German occupation of the Hellenic mainland.

In the intervening weeks since the German occupation was completed, the Germans have consolidated their positions there despite frequent heavy British air raids on strategic airbases and other objectives.

### In Easy Range

Crete, lying roughly 75 miles below the southern tip of the Peloponnese, is within easy range of German dive-bombers and troop carrying planes based on the mainland.

British and Greek forces, thousands of whom were evacuated to Crete following the collapse of the allied front in Greece, have heavily reinforced the island stronghold in recent weeks.

Military circles in London emphasized today that a parachute attack on Crete "would not have a chance" unless it were carried out on a gigantic scale.

Diplomatic sources said they did not know whether King George is still at Crete, but in the absence of information to the contrary it was assumed that he had remained on the island.

by Vichy to bring these "Free" colonies under the rule of the men of Vichy.

In addition, Gen. Georges Catroux, commander of the De Gaulle armies in the Near East, broadcast a new appeal to the French army in Syria—which takes its orders at present from Vichy—to "ignore instructions from Vichy and Berlin."

Since commencement of the German infiltration into Algeria, Tunisia, Morocco and Libya, it was stated, the Vichy and Berlin governments have planned a three-pronged attempt to regain the "Free French" colonies.

According to information in London this would be attempted by means of drives through Libya and West French Africa to equatorial Africa.

Cooperation of the French fleet in this campaign is said to be contemplated and it is known that some fleet units have been mobilized at Toulon for duty in African waters.

Other units, including submarines, are now at Oran preparing for action.

ing New Zealand battle dress, landed in Crete by gliders, parachutes and troop carriers.

"Our military reports the situation in hand. Attempts by the enemy to capture one of our airdromes thus far has failed."

"During the last few days, our reconnaissance aircraft noticed very heavy concentrations of German planes at the airdromes in southern Greece."

"We have attacked these airdromes night after night and have inflicted severe damage. But it is now clear that these concentrations were a prelude to an attack on Crete."

"Parachute troops and others attacked Suda Bay, Canea and the Malania neighborhood after intensive bombing."

### Seek Airdrome Capture

"Apparently capture of the Malania airdrome was the enemy's objective. So far this has failed."

"Latest reports tell of continuous enemy reconnaissance accompanied by sporadic bombing and machine-gunning, chiefly against anti-aircraft defenses. The enemy captured a military hospital which now has been recaptured."

"There seems to be a fairly strong enemy party not yet mopped up. This party apparently is operating south of Canea and Malania. Herakleion was bombed but so far there have been no landings."

"Other parties have been reported accounted for."

Troops on the island—men from Britain, New Zealand and Greece—are under the command of General Freyberg. We feel confident that a most stern and resolute resistance will be offered to the enemy."

Churchill's disclosure that the Nazi parachutists landed in New Zealand battle dress was the first official revelation that the war began that Germany's "air infantry" operates in disguise.

### Glider Airdrome Used

During the German invasion of Holland and Belgium when parachutists were first used with success, Reichsfuehrer Adolf Hitler issued a statement declaring these detachments were part of the regular army, attired in distinctive uniform, and warned of grave reprisals if any were arrested and shot as spies.

Churchill's speech also was the first official revelation that gliders are used by the Germans although military experts have long predicted that these silent machines would be used to great extent in any attempted invasion of Britain.

The prime minister dealt briefly with Ethiopia, stating that with the fall of Amba Alagi and surrender of the Duke of Aosta, all organized resistance in Abyssinia was being brought to an end.

### To Release Troops

In addition, Cairo authorities pointed out, the fall of Amba Alagi will release large numbers of British Imperial troops for active duty elsewhere in the middle east theatre.

Some or all of these forces may be rushed to North Africa, where fighting is still reported raging furiously along the Egyptian-Libyan border region, where the British state they are still in control of Sollum.

If this area German and Italian forces, supported by tanks, swept south of Sollum and then crossed into Egypt only to be driven back into Libya by advanced British contingents. During this engagement British and South African planes knock a number of German tanks out of action.

On the Syrian front, British planes carried out renewed bombings of German aircraft at Syrian airdromes.

One Heinkel and another Nazi craft were reported destroyed as a result of a British raid on the Palmyra airdrome and other German planes were damaged by attacks at Damascus and Rayak, according to a British communiqué.

The Iraqi airdrome at Raschid, near Baghdad, also was stated to have been bombed again.

### BERLIN REPORTS

ALL PERSONS ON  
ZAMZAM SAFE

(Continued From Page One)

some of the exploits of the famed German Sea Raider Wolf in the world war days, which sank countless thousands of tons of enemy shipping and finally beat its way back to a German port after the entire Reich had given the vessel and its crew up as lost.

German officials did not in any way identify the ship which sank the Zamzam as a prize of war, presumably somewhere in the South Atlantic.

Editor's Note: Some months ago, reports said the German battleships Scharnhorst and Gneisenau were operating in the South Atlantic as sea raiders. Recently, however, the British air ministry has identified these ships as lying at dock in Brest—the constant targets of Royal air force bombers.

### German Statement

The German statement on the Zamzam said:

"All passengers and members of the crew of the Zamzam have been taken prisoner and landed somewhere in occupied territory."

"The ship was sunk after it had been searched for contraband and designed for use of the De Gaulle and British forces which was found aboard."

"A German south seas raider, upon sighting the vessel, ordered it to come to port in strict accordance with international prize rules to permit examination of her contraband cargo."

"Thereafter the ship was sunk. 'Not a single member of the crew or any other person aboard was injured.'"

Editor's Note: The grounds upon which the German raiding captain satisfied himself that the contraband was carried were not disclosed. According to the American export laws, which handled the liner's freight, she carried lubricating oil, automobiles and manufactured goods as well as the full equipment of an ambulance unit. There were no munitions aboard, the export lines said, and nothing that could be "remotely connected with implements of war," except for the ambulances. It was recalled, however, that when the ship cleared New York, a memorandum distributed to newspapers and press associations classified the Zamzam as a "belligerent" vessel. This statement was later described by the British-American ambulance corps as "erroneous."

"Non-Belligerent Cargo"

(At the same time, William V. C. Ruxton, president of the corps, said: "The Zamzam was carrying a non-belligerent cargo and these men were going as non-combatants.")

While the brief official statement called the German ship involved in the dramatic incident a "South Seas" raider, this did not imply operations in the South Pacific alone. The term "South Seas" is used by Germans to cover all ocean tracts below the equator.

It was obvious that the ship which sank the Zamzam was a surface raider—possibly a "Q-ship" of the cleverly disguised wolf type, and not a submarine. Germany has no submarine capable of taking aboard the full complement of a ship the size of the Zamzam.

German officialdom sharply attacked the "triumphant, eager and over-hasty howling of British-American warmongers who lamented the alleged death of the Zamzam sinking prematurely in an effort to stampede public opinion."

**German Warning**  
A spokesman said: "We must again remind the world that all ships carrying contraband into enemy territory fall under international regulations. Anyone traveling upon them or who otherwise knowingly exposes his person to such a situation incurs the risks inherent in sea warfare."

British propaganda cannot hide these facts. It would be well for Americans to keep in mind the clearly-defined rules of war. These affect all ships, regardless of nationality, that carry contraband or enter the war zones.

"And the latter include the Red Sea."

Editor's Note: This remark apparently was directed against the Roosevelt administration, which recently relaxed restrictions to enable American ships to enter the Red Sea.)

### Landed At "French Port"

Reliable information said that all aboard the Zamzam were landed at a "French port" and interned. Inasmuch as the term "German-occupied territory" was used, it was assumed that the port was in France itself, indicating that the raider succeeded in dodging the British blockade and had come back to Europe. There is no officially "German-occupied territory" in Africa.

Responsible quarters in Berlin expressed belief that American Red Cross attaches aboard the Zamzam would be regarded as a separate non-combatant unit and set free in due time. Their release, however, is expected to be delayed considerably while the process of "sorting" them from British citizens aboard the Zamzam is under way.

All of the Americans who sailed on the Zamzam are well, according to authentic quarters.

## Inspect Wreckage Of Light Bombers That Killed Four

(International News Service)

RAINS, S. C. May 20.—Army officials today inspected the wreckage of two light bomber planes which collided and exploded above Rains yesterday, bringing death to four flyers.

Victims of the accident were Second Lieut. Frank B. Ralston of Pittsburgh, Pa., Second Lieut. Allen J. Moore of Reno, Nev., Sergt. David L. Boyd, Frost, Texas, and Corp. Herbert O. Pruitt of Collinsville, Miss.

The planes were part of a flight of six bombers from the Savannah, Ga., air base to Langley Field, Va. One of the ships fell on a deserted house. In advance of an official finding, witnesses to the collision said the ships appeared to have been thrown together by a sudden gust of wind.

## B. P. W. "GUEST NIGHT" PROGRAM GIVEN MONDAY

## COUNTY FEDERATION TO MEET NEXT WEEK

To the pleasure of having guests for the annual "Guest Night", the Business and Professional Women's Club added a good dinner and musical program last evening to their meeting held in the Green Room of the Y. W. C. A.

Following the serving and group singing led by Mary Harvard, the club choir contributed several songs. President Genevieve Riddle introduced Mary Scherger who acted as chairman for the program arranged by the Transportation, House and Program committees. Roy McClenahan, baritone soloist, pleased the audience with several songs, for which Mary Hahn played the piano accompaniment. The soloist added to a pleasing voice, good enunciation and expression. Zigmund Darzynkiewicz, accompanied by Betty Robinson, played a delightful violin number. David Cramer, the winner of the trumpet award in the national contest, played two spirited selections, for which Edwin Lewis furnished the piano accompaniment. That New Castle's musical future contained good promise in these young musicians, was the comment of the chairman, and judging from the applause the members and guests heartily agreed.

The Executive Board of the club will hold its monthly meeting in the Y. W. C. A. office on Monday, May 26, at 8:15 p. m.

### YOUR PART IN NATIONAL DEFENSE

THE executive director of the State Council of Defense, Dr. Arnold C. Marts, has outlined 12 ways in which every Pennsylvanian can aid in the all-out defense effort in this nation. They are important enough to be read by every citizen of this state—not only read, but remembered and practiced.

Here they are:

- Be happy and proud that you are an American.
- Do a better job today than you did yesterday.
- Help make draftees realize that their service is a patriotic privilege instead of a calamity.
- Co-operate with local authorities when orders are issued regarding special fire drills, bomb shelters, gas masks, and other defense measures that are strange and unfamiliar to the citizens of America.
- Forget political bias and unfair or mean personal criticisms of our elected leaders.
- Write letters of encouragement to young men in the service of the Army and Navy.
- Buy the special defense savings bonds and stamps that the United States Treasury has issued.
- Be a little more unselfish in your attitude in your community.
- Volunteer for service in one or more of the civilian agencies in the community, such as Red Cross or united service organizations.
- Help to provide recreational programs for those in federal service.
- Attend your church regularly and bolster the spiritual resources of the nation.
- Report all suggestions to the state or local council of defense.

There is something that every one of us can do in this mammoth national defense effort of ours. You, as a private citizen, do not have to look around blindly, wondering what you can do. Read again these 12 suggestions, and if you do your part the result will be better, happier communities.

### FLOW OF MONEY

Interesting to analyze is the ebb and flow in and out of the United States of its currency during this war. To get a complete view of this it is helpful to know that the United States currency now in circulation totals \$9,971,000,000, of which \$500,000,000 is believed to be held abroad.

More of this currency is now coming into the country than is going out. In April of this year \$755,000,000 came in; in March \$720,000. In April only \$415,000 went out and in March \$433,000. Of the receipts in April only \$10,000 came from Europe—all from Portugal. The West Indies sent in \$415,000, Canada \$213,000, and Central and South America \$60,000.

In March and April Germany sent no currency here. In the previous five months Naziland regularly had shipped currency to New York for redemption, the shipments consisting of all denominations except \$10,000 bills. Obviously it is becoming increasingly difficult for Hitler to get his hands on real money.

How much United States currency is shipped to these shores and cached in safety deposit boxes by foreign interests in not known, of course, but some estimates of the figures are large.

### NOT ALL "DEFENSE" TAXES

Next to the "war of the Atlantic" which, as this is being written, is occupying the editorial writers and the columnists, we are hearing most about the necessity for raising three and a half billion dollars by taxation next year in addition to the already crushing tax burden which the American people are bearing. We are told, and rightly, that heavier taxation will be necessary to carry the load of civil expenditure, national defense and lease-lend aid to Great Britain. Unless we can raise increasingly more and more money by taxation, we will be confronted with a prospect of inflation which even the most rigid efforts of the government may not be able to checkmate.

There is one point, however, which in all fairness ought not be forgotten. The administration proponents, when they talk about this new tax increase, refer to it almost invariably as a "defense tax." Yet it is something more than this.

After the New Deal got into high gear in 1933 we entered upon a program of spending ourselves rich, of curing the depression by "priming the pump" of business through huge government expenditure. We all know how this money was spent. In those days there was little talk of national defense in spite of the fact that Hitler was doing everything possible to rearm Germany and get ready for the second world war.

It is because defense was neglected in those years, and for the further reason that expenditures in other avenues were so high, that we must now have terrifically increased taxes in 1941 and 1942. Visionary and extravagant policies were entered into and they failed of the purpose for which they were designed. All tended toward the building up of a centralized control in Washington, of one big bureaucracy under the executive department in which Congress would be little more than a rubber stamp.

Now the chickens are coming home to roost. National defense is necessary and should be built in an efficient way. But this does not gainsay the fact that such mounting taxes would not have been necessary had saner and more conservative financial and business policies been followed in the early days of the New Deal.

Sooner or later we are going to get to the point where we will be tax conscious and the great majority of the American people will know just how it all came about. The federal administration will not then be able to escape the responsibility by charging it all up to defense.

The woman who was formerly fair, fat and forty, has now become swank, slim and sixty.

In the old days we used to debate on which came first, the chicken or the egg. We know the answer now. Neither—it's the tax collector.

Finland is again paying on its debt to the United States. We hope the Finns will be able to pay their debt to Stalin some of these days.

## The Parent Problem

By Garry C. Myers, Ph.D.

### BIG BROTHER CAN HELP

Because I have to hear and read, day in and day out, so many accounts of bickering, quarrelling and fighting, you might suppose that I am pessimistic about family happiness ever being a reality.

But I am not. I employ enough psychology to know that parents are far more likely to tell or write of their pains than their pleasures, of their defeats in family relationships than their victories, and of their sorrows than their joys. Nevertheless, some do write me of their successes. Indeed, some describe relationships between brothers, between sisters or between brothers and sister that appear ideal. Besides, I have witnessed some of these relationships myself.

**Helpful Big Brother**  
Let me describe one big brother-little brother relationship. Nine years separate them. The elder from his very early years, acquired keen interest and skill in making and creating things. By the time he entered high school he had developed a fine work shop with many good tools, most of which he had bought with his allowance.

When Big Brother was in the work shop, his little brother often was there too, marveling at the wonderful things Big Brother was making and helping when he could. Little Brother had learned to be careful of his brother's things and the big brother had been generous in letting the little boy use them when he proved able to do so.

The older boy seemed never to weary of answering the younger one's question, and this relation has continued to this day when they occasionally are together at the respective ages of 26 and 17.

**Emulating Older Brother**  
Emulating the older, the younger lad also developed a work shop, having inherited and supplemented that of the elder. While Big Brother was in junior and senior high school he was constantly asked by Little Brother to explain things and help do things too hard for the younger. As a result, the younger schooled himself in a vast deal of basic scientific information bearing on physics and chemistry, even before entering high school. Incidentally the older brother gained by way of clarifying his own scientific concepts as he explained them to the eager younger brother.

For years, the younger lad, now a senior in high school, has been looking up to his elder brother, admiring his achievements and faithfully studying habits, deliberately trying to follow them, and has done well.

I could describe other relationships like these; so could many of my readers. It is such relationships I like to dwell upon as I think of the many happy families of today and vision still more families like them in the future. Nevertheless, all too often elder brothers and sisters realize what an inspiration they are or may be to a younger brother or sister. For further reading on this subject let me refer you to my book, "The Modern Family," which you probably will find in your public library.

**Solving Parent Problems**  
Q I am enclosing a self-addressed, stamped envelope. Please send me your sheets of simple addition and subtraction facts. I want them for my 12-year-old daughter who has a hard time with arithmetic.  
A. They were sent, gladly, and will be to others who write me at 235 East 45th Street, New York City, enclosing a self-addressed envelope with a three-cent stamp.

## The World and the Mud Puddles

### A LONG SUFFERING CITY

The Nazis' invasion of Yugoslavia brings to mind the great number of invasions that have happened to that territory which is now Yugoslavia. Belgrade has probably seen, endured and been sacked by more armies than any other City of Europe. It has had camped about it the Romans, the Huns, the Goths, the Turks and now the Germans. The original citizens were Celts and when the reader sees the word "Celt" he only thinks of the Irish people, but the Celts were middle Europeans. They were tall, fair-haired and blue-eyed. The Roman legions had no end of trouble with the Celts, the Dacians and Pannonians, but the Romans ruled them for a long time, probably longer than any other conquerors.

Following the Romans, Attila the Hun came and you know about Attila, "The Scourge of God." He just about overran Europe as thoroughly as Hitler, and he was as ruthless and very thorough-going in war. Then came the Franks under Charlemagne and after the Franks the Byzantine hordes and so on down. The Austrians took, lost and took again the City of Belgrade. The reader may remember the alliterative poem which began:

"An Australian army awfully arrayed  
Boldly by battle besieged Belgrade."

And finally, Germany in the last war took Belgrade, lost it and then took it again and held it until the end of the war when the State known as Yugoslavia was brought into existence by the Treaty of Versailles. The history of this modern state and the history of Belgrade have suffered at the hands of every ambitious warrior who has endeavored to rule all Europe.

Johnny promised his mother that he wouldn't, but it wasn't very long until she heard him swear and she immediately packed his clothes and put him out of the house. Johnny stood on the step for approximately an hour, his mother watching him from the window, and finally she opened the door and asked him why he didn't leave.

He replied: "I was just wondering where in the hell I would go."

Answer: Advice on such a complicated subject must be covered in several of these columns. So we will today consider the too round face. The most important lines to be considered are those that frame your face. They will either accentuate your good points or your defects, depending upon how carefully you make your selections. These are the lines of your hat, your hairline and necklines. The sketch to the left of the picture represents what "Round Face" should avoid. In the right sketch, she has been re-dressed in clothes that will tone down the too-round effect of her face. The close-fitting, round-neck, choker neckline and flat round hat in the first picture give her a pudging face appearance. The new low "V" neck in the second sketch helps to elongate her face. The hat with the upward lines is far more becoming than the flat, round one which repeats the curves of the face. A moderate bob, rather than that with a too bushy effect will also help flatten her fat cheeks. All round lines should be shunned and long, slenderizing effects used, always.

Question: I am going to have a church wedding with a garden party (in my own garden) for my close friends and relatives. Can you give me a few ideas for arranging my garden for a party?—V. V. V.

Answer: Simply give a tea or a buffet supper (depending upon the time of day that your party will take place) in your garden. If you are a large estate and you can afford it, place in the center a large gaily-colored tent, which you can hire for the purpose, in which to serve refreshments or dance, if you prefer.

If this is not convenient, distribute throughout the grounds lawn tables, having gaily-colored umbrellas extending up through their centers. If you have wicker porch furniture, distribute it about in shaded corners. Your servants (or members of your family or friends appointed to assist you—if you have no staff of servants should direct arriving guests into the house into the dressing rooms and thence to the spot where you as hostess are to receive them. If the lawn is large and your guests numerous post your assistants in various spots to see that everyone is properly served. Serve, for an afternoon tea, tea, tea sandwiches, cake, nuts and candy. Buffet: Cold meats, a salad, rolls, coffee and wedding cake.

Tomorrow—More Facial Defects.

"Yes," John asserted. "I am far happier now than I was on earth with you."

"Oh, do tell me, John," the widow cried rapturously, "what is it like in heaven?"

Capital Ponders Hess Mystery  
Problem Eyed From All Angles  
Washington Burns With Anxiety

### By CHARLES P. STEWART

Central Press Columnist

WASHINGTON, May 20.—Winston Churchill, as I write this dope, is said to be just starting to interview Rudolf Hess, Herr Hitler's second deputy fuhrer. By the time I can get my stuff into print I presume the fugitive Nazi will have coughed up his whole story. Adolf's answers in advance, however, is that Rudolf's crazy. I don't suppose anybody'll believe it, though—except possibly, the Germans. Another yarn is that whatever Rudolf says to Winston must be discounted 100 per cent, on the ground that Adolf deliberately sent him to Britain to fill the British level full of misinformation.

Washington, where I hang out, is simply bursting with curiosity. No doubt the whole country is, the entire affair being a mystery fit to set Sherlock Holmes guessing. But it's more than a mere mystery to our capital's officialdom, which more than surmises that presently it will reveal itself as a corkingly important war development, that's liable to furnish us with immensely valuable pointers in connection with our own collateral policies; if Germany's cracking up internally, we certainly are tickled, as well as the rest of the democracy.

**Plenty of Solutions**  
Tentative solutions of the puzzle are almost too numerous to mention.

Adolf's version that Rudolf is nutty, while tossed into the discard, as being borne out by none of the evidence, nevertheless is regarded as having some significance, in that Adolf was in such hot haste to broadcast it. Generally when he runs into a bit of hard luck, he suppresses the news of it. But this bit was of such proportions that he deemed it necessary to counteract it, somehow.

The notion that the Fuehrer air-planned his deputy into Scotland on a Trojan horse generally is pook-pooked. Adolf needs native Trojan horses in the countries he seeks to operate on; a German horse would be too noticeably Trojan.

That Rudolf doesn't want the British empire to be completely destroyed, and aims to mediate peace on his own responsibility strikes most observers as highly improbable. He hasn't behaved very considerably toward the British empire hitherto. Contrariwise, it's suggested that he already foresees Germany's defeat in the long run and wants to mediate now, in order to prevent it. To date, though, the Nazis have been pretty successful. Why should he develop a defeatist hunch at the present juncture?

The more plausible theory appears to be that he violently fell out with Hitler, expected to be (Continued On Page Seven)

WASHINGTON, May 20. CRITICISM of the President at this time is a thing in which few persons would indulge without real reluctance. Certainly it would be far more pleasant to praise him. But what is the alternative to criticism? It is to turn away from the facts. It is to join in the game of misleading the people in the way, for example, Mr. Jesse Jones did the other day when he told the Associated Press that things in Washington are "better than good."

EVERY informed person here—and that includes Mr. Jones—knows that that just isn't so. Perhaps Mr. Jones may be forgiven because, as a member of the President's Cabinet, if he speaks at all that is the kind of thing he is bound to say. The truth is that Mr. Roosevelt's course is so contradictory and confused on so many vital things that deep distress prevails among thoughtful men in and out of the defense organization. The more they know the greater is their apprehension.

AT the moment the most anxiety is over the inability to get Mr. Roosevelt to move to halt either the drive of the professional labor leaders to push wages higher and higher or the drive of the farm lobby to gouge out more billions for the subsidized farmer. It is perfectly clear that, unchecked, these drives will send the cost of living very much higher, defeat his price-control policy and increase the peril of inflation. It is impossible to believe that the President does not realize these things. He has discussed them at various times with various persons and repeatedly he has expressed his appreciation of the dangers.

YET he fails to take the obvious steps to avert the calamity which he knows threatens or to do the things essential to make his own policies work. It is a strange state of affairs. Every strike is settled by the simple but costly expedient of granting substantial wage increases. The natural result of this is more strikes and higher wage demands. If the increase in food products raises the cost of living then labor will have a still better excuse to demand higher pay — and undoubtedly will demand it.

THIS is the vicious circle against which Mr. B. M. Baruch has so often warned and about which all economists agree. Many months ago Mr. Baruch insisted that no effort should be made to hold wages down until price control was established, but he did point out again and again that price control cannot be effective unless it is linked with wage control. They are inseparable. The ceiling has to be put over both. Putting it over one will be both futile and foolish. Nevertheless, that is exactly what Mr. Roosevelt is trying to do.

HE has vested Mr. Leon Henderson with vague power to regulate prices (Continued On Page Seven)

## Red Cross Asks For More Nurses

Appeal Is Made For More Registered Nurses To Serve During Emergency

OVER 6,000 ARE NEEDED BY JULY

Mrs. J. Glenn Berry, chairman of home nursing, Lawrence County Chapter of the American Red Cross, has been advised by Miss Mary Beard, national director, American Red Cross Nursing Service, of the requirements of the Army and Navy for more nurses. There has been a decided increase in the demand for nurses in the past week.

Mrs. Berry declared the response of nurses to the national defense challenge has been splendidly patriotic but thousands more will be needed than was anticipated six months ago.

"These new demands upon the Red Cross First Reserve of Nurses, which is the official reservoir of nursing strength for the army and navy, places a tremendous responsibility upon all American nurses. I am confident that their answer will be an overwhelming increase in enrollments in our First Reserve. From the additions to this reserve the army and navy should have no difficulty in obtaining the thousands of recruits needed for their nursing services," continued Mrs. Berry.

The Red Cross First Reserve now totals approximately 24,000 registered nurses. In the past half year enrollments have come in at the rate of more than 1,000 a month, reaching a total of 7,590 in the period November through April, compared with 2,474 in the same six months a year ago. This is an increase of more than 200 per cent.

The surgeon general of the army has informed the Red Cross that 5,019 reserve nurses must be on active duty in army camps by July 1 instead of 4,019 as originally scheduled. With the 1,135 nurses of the regular army this makes a total of 6,144 army nurses who will be in the camps and station hospital by the beginning of the 1942 fiscal year in July.

As of May 1, a total of 2,478 Red Cross nurses had taken their oaths and reported for duty at camps throughout the country as reserve army nurses. This leaves a total of 2,451 to obtain in the last two months of the current fiscal year.

The authorized total for the Army Nurse Corps in the 1942 fiscal year, including both regulars and reserves, is 8,237. Mrs. Berry pointed out that the army hopes to build up to this point by next December, which means that between now and then 4,624 Red Cross nurses must be inducted into the Reserve of the Army Nurse Corps.

The Navy Nurse Corps must also increase its staff to keep pace with the expanding personnel of the navy. Mrs. Berry pointed out. The navy now has 522 regular nurses on duty plus 100 reserve nurses, making a total of 622. The Navy Nurse Corps Reserve has been built up to 1,110 and by June 30 must total 1,500. It is understood, Mrs. Berry said, that this reserve corps, consisting of Red Cross nurses, will be increased materially in the new fiscal year.

but has given him no power at all to deal with wages, which clearly determine prices. Nor has he given that power to anyone else. On the contrary, he retains a labor setup in the defense organization well calculated to promote strikes and has put the White House weight against any legislation the purpose of which is to discourage strikes or modify the Wagner Labor Act, which is at the bottom of all the trouble. And, under pressure, Mr. Henderson, named to keep commodity prices down, has endorsed the Secretary of Agriculture's policy of putting food prices up.

WHAT is the explanation of all this? How is it to be reconciled with reason? Why is the concededly sound Baruch advice not followed? Why does this Administration persist in coddling and cajoling union labor leaders and the farm lobby while calling for sacrifices from everyone else? There seems but one answer to these questions. It will, Mr. Roosevelt cannot bring himself to face the protest from the farm elements that would follow any attempt to limit agriculture prices, and he is afraid of the cries from the union labor leaders that any effort to control wages undoubtedly would produce.

IF there is any other answer to the attitude of a President who proclaims a major policy, selects a man to implement it and then himself prevents it from being carried out—if there is any other answer to that, it has not been suggested. The fact seems to be that the President is so linked politically with these great voting groups, labor and agriculture; has been so dependent upon them for his political success; is so close to their leaders, who are an essential part of the New Deal, that he finds it impossible now to take a stand against them even when their excesses threaten the stability of the country, frustrate his own policies and affect the fate of our British ally.

IT is hard to think that the President is unable—or unwilling—to extricate himself from this kind of jam. It is hard to believe that the New Dealers whom he has put in command of his defense policies are still playing New Deal politics with labor and the farmer, just as they have done with such extraordinary success for eight years. But what else is there to believe? The facts cannot be disregarded. It is not right that they should be ignored. Members of Mr. Roosevelt's Cabinet, like Mr. Frank Knox, bleat about the "terrible burden" the President is bearing and the necessity of giving him every possible support. Under ordinary conditions, what he and his friends are doing would forfeit any right they have to ask support. The trouble is that these are not ordinary times and support is inescapable. However, no useful purpose is served by pretending that what is being done is wise, good, or even decent. The only possible way to improve this situation is to point out the facts. Perhaps that will not avail, but at least it cannot make things worse.

## What's What At A Glance

(Continued From Page Four)

liquidated and scooted while the going was good.

But what was the issue over which he and the boss fuhrer quarreled so bitterly?

### Opposed to Reds

Well, they say Rudolf was a rampant National Socialist and furiously opposed Communism. And Adolf, for quite a while, has been tending toward a rapprochement with Communist Commissar Stalin. Did Rudolf get sore about it? Maybe. Yet few intelligent bystanders have so much as suspected, at any stage of the game, that Herr Hitler was doing otherwise than playing Joe Stalin for a sucker, or that he wouldn't dump the latter at the first favorable opportunity.

It seems as if Rudolf must have understood this, so why was he so tremendously resentful of Berlin's temporary tinkering with Moscow? One would guess that, at most, it couldn't have been more than a mild difference of opinion between Rudolf and Adolf. Still, at that, it's remarked that there's no such thing as a MILD disagreement with Adolf Hitler. If you disagree with him at all, it's total. Incidentally, I hear critics observe that they don't think it's Rudolf who's crazy; it's Adolf.

Then, there's another theory: From all accounts, the German army isn't pro-Nazi. It's pro-army. Now, Marshal Goering is a big man in the army. He is Herr Hitler's first deputy fuhrer, ranking Second Deputy Hess, but it's alleged that he's more an army man than he is a Nazi; that his scheme's to army-ize Germany, overthrowing the Nazis, and liquidate both Herr Hitler and Herr Hess, himself grabbing control of everything. Rudolf, if this spiel's correct, overheard hints of the program, decided that Marshal Goering could and would put it across before long, and lit out, to escape being liquidated, not by Herr Hitler, but by the marshal. Isn't that a set of rumors to start strategists a-guessing?

# Political Move Says Governor

Gov. James Discusses State  
Democratic Tax Reduc-  
tion Proposals

## EMPTY GESTURE SAYS EXECUTIVE

By EVERETT GERRY  
International News Service Staff  
Correspondent

HARRISBURG, May 20.—The Democratic party's proposal to reduce the state's four-mill personal property tax was dismissed by Gov. Arthur H. James as an empty political gesture.

He saw the proposal as an opposition attempt to build political fences for next year's gubernatorial race and scoffed at predictions by Democratic legislative leaders that revenue in the 1941-43 biennium will be greater than in the preceding fiscal period.

Governor James said it is imperative that the state postpone taking over the operation of 12 county mental institutions and reiterated that it is not possible now to cut taxes and still balance the budget.

**Taxes Must Remain**  
Not only the four-mill personal property tax but all other emergency taxes must remain untouched, he warned, in order to balance the budget within the next two years.

Democratic leaders in the House claimed after a study of revenue that the governor has underestimated by \$25,000,000 to \$28,000,000 the amount of taxes for the 1941-43 biennium.

Pointing out that he has co-operated with the Democrats by furnishing complete budget in-

formation in recent months, Governor James told newspapermen he "would be happy to show them (the Democratic leaders) where they are so far wrong."

**Trying To Build Fences**  
"The Democrats," he said, "are trying to build their political fences rather than solve the financial problems of the state."

"If they want to fight the 1942 gubernatorial election in the legislature, we are willing to submit our action against theirs. To balance the budget for the next biennium we must reenact the emergency taxes in full and keep the responsibility for mental hospitals in local districts."

"I wonder if they think that the people of Pennsylvania are blind. At a time when we should have patriotism and unity, the Democrats are more concerned with which one of their factions will name the nominee for governor in 1942."

Governor James also recommended the postponement for another two years of state appropriations for school transportation, high school tuition and for supervisors of special education.

The Democratic leadership, on the other hand, favors these subsidies and the acquisition by the state of the mental hospitals within the next fortnight.

The governor said he was confident that the state's finances would be balanced for his successor if the legislature adopts the budget submitted by him four months ago. He estimated that the tax yield in the next two years will be approximately \$388,000,000.

Taking over the 12 mental hospitals and providing for school subsidies would require an additional \$26,000,000 to \$30,000,000 to the budget, the administration contends.

# It HAPPENED here!

By NORMAN CHANDLER, CHAIRMAN, NEWSPAPER PUBLISHERS COMMITTEE

FRANCE SAT BEHIND THE MAGNOT. Her fatuous politicians and her servile press lulled the public into a fool's sense of security.

Uncle Sam sat complacently between his two oceans. But here, suddenly, AN AROUSED PUBLIC

OPINION drives Uncle Sam to the GREATEST REARMAMENT EFFORT THE WORLD HAS EVER WITNESSED.

What AROUSED this public opinion? It wasn't the admirals and the generals. It wasn't the politicians, busy with their personal axe-grinding. It wasn't Business, occupied with problems of customers, products, profits.

Some unpopular fellow—all alone at first—raised his voice: "We need a bigger and better army." The newspapers reported his speech. A much MORE popular fellow answered him: "It will cost money—and we are safe enough as we are." The newspapers reported HIS speech. Soon another voice—and another—and another—took up the discussion. The newspapers printed BOTH sides of the news.

A curious columnist asked how long it took to build a bomber or a battleship. An air-line president made a statement—a labor leader and a congressman and an industrialist took issue with a banker—You saw and read all these, along with a thousand other things which shifted America from listless, low speed into high gear.

While there was yet time—and because we were all yet free to speak our minds, express our opinions and print the facts—

Uncle Sam shook off his lethargy. It HAPPENED, right here before our eyes.

Now imagine, if you will, a nation like ours which lacked JUST ONE THING—a free press. Suppose we let "the government" say what could or could not be told. And suppose that government, for any reason whatever, preferred to keep you, the citizen, in the dark. France's government preferred that course.

How would we ever have aroused businessmen and workers and bankers and housewives—the whole nation in fact—to the effort and sacrifice we are now putting forth?

As it is, we are in this thing with our eyes open. We've had a free and full discussion of fact and opinion. We know what we're doing, why we are doing it. The decisions we are making are the decisions of the people—an enlightened, capable and informed people.

Your newspapers deserve no especial credit for their part. They have merely done the job newspapers in a democracy are supposed to do.

But remember, their job is NEVER FINISHED. Tomorrow's news is just as vital as today's. Censorship, suppression and restraint, placed upon your newspapers, are only ways of closing your eyes and ears to what is going on. Keep your papers FREE, independent, responsible to you, the reader, alone!

Over 300 leading newspaper publishers join together to bring you this weekly message about the function of the press in a free nation. Newspaper Publishers Committee, 420 Lexington Ave., New York.

Will Receive Her  
College Diploma  
At Nineteen Years

(Special To The News)

NEW WILMINGTON, May 20.—Westminster college's youngest graduate this year, in a class of 104 seniors, is Isabel Shane of Aliquippa, still "in her teens."

Nineteen years old, Isabel attended eight different grade schools; skipped the fifth grade entirely, and spent only two months in the first grade of a one-room country school house that her two grandfathers had attended before her, on the west coast.

In Westminster, Isabel has been a four-year honor student, and is receiving a Bachelor of Business Administration degree. For two years she has been an assistant in the economics department.

Her hobbies include "writing poetry" and painting antiques. After graduation, she expects to attend the IBM school at Endicott, N. Y., to train as a supervisor for International Business Machines.

She is the daughter of Mr. and Mrs. L. C. Shane, Aliquippa.

During the serving of dinner, appropriate music was offered by students of the Donati School of Music. Lou Cost served as master of ceremonies.

Dancing was in vogue starting at 9 o'clock.

The Rev. Fr. Nicholas DeMita, pastor; the Rev. Fr. J. Abbate, assistant pastor and general chairman of the affair, thank all those who contributed toward the success of the event.

Attorney Charges In Opening  
Case That \$12,500 Was  
Given To Davis

(International News Service)

PHILADELPHIA, May 20.—Stepping into an area from the street to avoid the eyes of passers-by, retired Circuit Court Judge J. Warren Davis accepted \$12,500 wrapped in newspaper from a man whose bankruptcy case he handled in court, a federal trial jury was told today.

Details of this and another alleged illegal financial transaction were outlined by Walter H. Gahagan, Jr., special assistant attorney general, as he opened the government's case against Davis and Morgan S. Kaufman, Scranton attorney. Gahagan charged Davis with taking the money—12 one thousand dollar bills and an additional \$500—from William Fox, bankrupt movie magnate, as a bribe to rule in the latter's favor. Kaufman is accused of being a "go-between" for Davis and Fox in one of the "deals."

In his opening address, Gahagan asserted the government would show the two defendants were involved "in a conspiracy to sell justice of the United States and to sell decisions in the United States court." Gahagan named five specific instances in which, he averred, justice was sold.

Bruno Attisano, West Pittsburg struck by some of the "backshot" from the shotgun, was discharged yesterday by New Castle hospital officials. However, the condition of Mrs. Anna Patsy and her son Anna, is serious. Miss Lena Patsy, a daughter, is improved, likewise John Majeski, 25, South New Castle borough, hospital attaches reported today.

WANTED:  
FOLKS WHO NEED LOANS  
TO READ ABOUT THIS PLAN

— Rates are not the same at all loan companies —  
Here are facts and figures to help you shop for your loan  
— Read how you can borrow \$20 to \$300

HAVE you a money problem which a personal loan will help you solve? Here is a simple way to borrow without endorsers or guarantors—and at rates substantially below the lawful maximum. If you have a job and can make monthly payments you are invited to come in and see us about getting a loan up to \$300.

Suppose that you need \$100. Find this amount in the first column of the table. Then read across picking out the monthly payments convenient for you to make. Twelve monthly installments of \$9.75 each, for instance, will repay a \$100 loan in full. Or, as little as \$6.97 a month for eighteen months, will also repay a \$100 loan.

## All you do

All you do to apply for your loan is to acquaint us with your problem. Loans are made on furniture, car or note.

But we attach far more importance to character and regular income than to the value of security. It is unnecessary to ask outsiders to sign the loan papers with you. And at no time do we question friends or relatives about your credit.

## Get your loan for less

The payments in the table include all charges. These charges are calculated at Household's rate of 2 1/4% per month on that part of a balance not exceeding \$100, and 2% per month on that part of a balance in excess of \$100. The Small Loan Law permits us to charge a substantially higher rate than these. Some finance companies do charge a higher rate. We publish our payments and rate of charge so that you may compare costs before you borrow. Phone or visit us for full information without obligation.

Let's see. About 3.5 persons to the family—say 38 million families, five aluminum pots and pans to the family. Maybe there isn't a shortage.

**FOOD RATIONING IMPROVES BRITISH HEALTH**

The wisdom of the adage that we dig our graves with our teeth is being proved anew by what is going on in Great Britain now.

When the "Battle of the Atlantic" began to affect British food stores and the whole nation had to go on rations, persons began prophesying epidemics of disease, especially in the winter months when many had to sleep in air raid shelters poorly heated, ventilated and sanitized.

But now after a year and more of rations, there is evidence the health of the nation has actually improved. A medical man of international reputation who recently returned to Canada after spending a year in England, assures me this is true.

With overeating now virtually impossible, but necessary food elements still available to all classes, digestive disorders have declined. We all know that digestive disorders place a great strain on the heart, so with indigestion, dyspepsia and such ailments in decline, hearts have been subjected to less stress. With balanced diets more common, dental health has been correspondingly improved.

Morale has been helped, too. For as Lord Woolton, the minister of food, has observed, indigestion is the mother of despair.

British people are having to get along on a fraction of the meat they used to eat. Eggs are scarce, too, and so is fruit. So they're eating more vegetables. With it necessary to conserve fuel and with cooking facilities limited, the foods are being prepared more simply or eaten raw, instead of being cooked to death and the vital juices thrown out. All

Pennsylvania Wheat Growers Raised Less In Past Year—Crop Brought 15 Millions

(International News Service)  
HARRISBURG, May 20.—Pennsylvania farmers curtailed their wheat production during 1940 by approximately 450,000 bushels, harvesting a crop value at \$15,219,000, the State Department of Agriculture reported.

Although the average price per bushel was 81 cents for both last year and 1939, farmers produced 18,789,000 bushels compared to 19,236,000 the previous year.

Figures released by the Federal-State crop reporting service showed a decrease in the number of chickens from 26,810,000 to 23,502,000. Pennsylvania placed 10th among all states in chicken production.

Pennsylvania, with 2,042,000,000 eggs produced, ranked fourth in that division but captured first position in the cash farm income from the sale of eggs with \$33,410,000. The average price per dozen, the report stated, was 22.6 cents.

# House Democrats About Decided On Tax Proposals

## Tax Reduction Plan Widened

Believe Revenue Of Next Two Years Will Exceed Governor's Estimates

### NUMEROUS TAXES BEING RE-ENACTED

By RAYMOND WILCOVE  
International News Service Staff Correspondent  
HARRISBURG, May 20—The Democratic majority in the house has decided to broaden its tax reduction program beyond that already announced, it was authoritatively learned today.

In addition to a one to two-mill reduction in the four-mill emergency personal property tax, the state tax on bank and trust company shares will also be slashed. The corporate net income tax will not be cut. The bank share levy is four mills and that on trust company shares three mills.

**Taxes Are Linked**  
Democratic leaders felt that the two taxes were legally linked and it was therefore impossible to reduce one and not the other. The estimated revenue for the personal property tax, as made by the James administration, totals \$27,600,000 for the next biennium, making it the third major tax of eight emergency levies originally passed in 1935 and being re-enacted this year for the

third time. The estimate for the tax on shares amounts to \$5,750,000. The Democrats believe that the revenue for the next two years will substantially exceed the estimates given by Gov. Arthur H. James in his biennial budget, presented to the legislature on Feb. 3, thus making it possible to reduce the two taxes.

**Other Taxes Re-enacted**  
The remaining six taxes are being re-enacted by the house without change. The taxes on gasoline, cigarettes, utility gross receipts and liquor have already passed the house and been forwarded to the senate for concurrence. All were approved unanimously, the 12-mill gross receipts and the 10 per cent liquor taxes at last night's session.

The remaining four taxes will "most likely be reported out Wednesday" by the house ways and means committee, said House Majority Leader Leo A. Achtemman. They include the corporate net income tax, the personal property tax, the bank and trust company shares and the tax on domestic and foreign loans.

Along with the tax bills will most likely come out all the remaining budget measures, said Achtemman, including the general appropriations bill and the relief measure, for which administration leaders asked \$167,932,745 and \$131,390,000 respectively. These funds will provide for the expenses of the legislative, judicial and executive departments of the state government and for the care of the needy.

### LIBRARY TO BEGIN SUMMER HOURS HERE

Summer closing hours for the New Castle Free Public Library will be inaugurated Monday, May 26, according to an announcement made today by Miss Alice Sterling, librarian.

Beginning on May 26, the main library and all the branches will open at 9 a. m. and close at 8 p. m. These hours will continue through the summer months.

The children's department of the main library will continue with the same hours, opening at 9 a. m. and closing at 6 p. m. daily.

## AROUND CITY HALL

Although the WPA some years ago spent a long time and much money on Cascade street it now turns out that should the city ever pave that thoroughfare it will be necessary to practically do the work over. The material there now will not suffice for a base. During council meeting Monday it was explained by petitioners for paving that practically every person who resides along the thoroughfare owns his or her home. There is a considerable amount of land owned by industrial interests. The people want the street improved to eliminate various conditions and stated so plainly yesterday. The street is being used as a by-pass for convoys and throughout the day the property-owners are treated to a dust repast. The director of streets, W. H. Dunlap, promised to do something to alleviate the condition and Mayor Charles B. Mayne indicated that legislation may be adopted prohibiting extrajurisdiction heavy trucks from using the street.

Merit is being recognized in the city department of police. No longer is it possible to take a man from the ranks and name him as sergeant. In order to perform the duties of police or desk sergeant, the person appointed must be a licensed police radio operator. Two patrolmen have qualified for that position. They are Joseph Logan and George Price, younger members of the force. Thomas Boyle and Gilmore Smith qualified months ago. They have since been named permanent sergeants. Grover C. Syling, another sergeant, and one of the older men in point of service, also qualified some years ago. No one not a licensed operator is allowed to use the police broadcasting station to send out police calls to cruiser cars.

Legal moves adopted by city council Monday resulted in the purchase of Carnegie Illinois Steel company ground and buildings (Greer mill and site) in the Fifth and Eighth wards. There were taxes amounting to about \$25,000 on the Shenango mill. It was decided by the city and county that they would pay the company \$25,000, each contributing one-half, for the ground and buildings and that the company would pay their taxes this month. This was the legal method suggested to close the deal and the ordinance effecting the purchase was passed today, hence the city now has available ground and buildings for any industry which may choose to take advantage of buildings already erected. The plot contains 20.3 acres and more than a dozen buildings.

Council, through Councilman Joseph Alexander and D. O. Davies agreed to help the Smith Dry Cleaning plant heads oil South Mercer street extension which Abe Gonick, owner, reported to be a "dust bowl." It is a dirt street and the dust interferes with the operation of the plant and working conditions of employees.

Councilman Joseph D. Alexander has requested City Solicitor Robert White to prepare a resolution of protest concerning the proposed increase of gas rates here. Councilman D. O. Davies and also Alexander maintain that the "little man" will be the sufferer because of the increase.

Delegation of housewives, all property, or joint property-owners on Monday appealed to council to pave Cascade Street between East Washington street and Butler avenue. Mayor Charles B. Mayne directed Streets Director W. H. Dunlap to investigate the situation and if necessary have the city solicitor rule on the legality of proposed notices that convoys cannot use the street. Cascade street was "improved" by the WPA years ago. It became a "shell-hole" thoroughfare. More recently the city put clay on the street. This became slimy. Later a fine material was placed on the street to eliminate this. Now the fine material has turned to dust. One woman claimed she had to arise at four a. m. to get fresh air because during the rest of the day the street was a "whirlpool of dust."

Local auto firms on Monday presented to city council bids for a one-half ton truck for the department of parks, as follows: J. R. Rick Motor Car company, Dodge, \$579.75; Chevrolet-Keystone company, Chevrolet, \$550.00 and Francis Motor Sales company, Ford, \$571.00. The bids were referred to Purchasing Agent Joseph D. Alexander.

Director of finance J. Leon Fink who returned to council Monday following a several days illness, reported he had approved a contract between the city and Paul Weller for the purchase by the city of liquid chlorine to be used this year at the Disposal plant. The contract was authorized some weeks ago.

City Volunteer Firemen now have an ambulance which can be used in rescue work in or out of the city.

In the city building Monday, council, through Safety Director D. O. Davies, ordered the city clerk to advertise for bids for the removal of structures, asserted by councilmen to be public nuisances, at 220-224 Weaver street and also 207 Walnut street. The cost will be charged against the owner or reputed owner. Council further resolved that the property at 120 East Long avenue reputedly owned by the E. J. O'Brien estate is not a nuisance as alleged. The council arrived at this decision following a view.

## Camp Roll Grows, All Records Toppled

Outlook For Camp Rentz Bright; Summer Memberships Popular

More boys registered for Camp Fred L. Rentz outings in the first 15 days of May this year than in the entire month of May last year, General Secretary Robert L. Meermans reported today. Of the camp's 360 boys-weeks capacity, 126 to date have been reserved.

"Camp does not open until July 7, but if the registration continues as it has the capacity will be quickly attained," said Meermans.

Registration enthusiasm isn't confined to the summer camp alone, either, for the general secretary said that 150 boys' summer memberships and 75 men's summer memberships (separate and distinct from regular memberships, and effective May 1) have been taken out. This sets a record for the summer membership division.

Installation of a modern electric kitchen in the Katy Did dining lodge on the Camp Rentz grounds has been completed. This year another half acre of brush bordering the main grounds is being cleared away.

## To Ask War Department About Changes In Draft

By ROBERT A. MCGILL  
International News Service Staff Correspondent

WASHINGTON, May 20.—The war department will be asked for a "full report of its views" on all proposed amendments to the draft act before congress acts on any of them, it was announced in the house today.

Rep. May (D) Ky., chairman of the house military affairs committee, said that he was compiling a list of the suggested changes for submission to the department and predicted there would be no congressional action on the matter for at least several weeks.

**Among Possible Changes**

Among the more important changes on which the department will be asked to express itself are:

To lower the minimum age from 21 to 18; to take in boys just out of school allowing them to select the year they will serve; to make the act permanent; to lower the top age from 35 down to 30, 35, or 21; to eliminate the 900,000 limitation on the number of men and take in all boys of a certain age; to legislate for uniform deferments for married men; and to give the president power to order blanket deferments of the higher age groups.

The last proposal is the only one so far officially requested by selective service headquarters. In response to questions, the headquarters announced today that this was not devised to defer any older men already drafted, but only to exempt older men who have not yet been inducted.

**Expects Report Soon**

May said that he expected to send the list to the department this week and anticipated receiving its report in two or three weeks after that. When this is received, he added, it will be referred to a subcommittee headed by Rep. Faddis (D) Pa., for a thorough study.

"I still don't see why they need any additional legislation at this time, but I want to find out just what the department does want," May declared.

"They're going to register another million 21 year old boys on July 1 and they can induct them any way they want."

"If they don't like the way deferments are going, and if they want to defer older men, they can do it by so instructing the local draft boards. I don't see why they don't do this instead of coming around here and asking for changes in the law."

Increased wage offers submitted by the management during week end meetings were said to have had an encouraging effect on the conference. The strike stopped service to 10,000 daily riders in Pittsburgh and northwestern Pennsylvania.

## SENIOR C. D. A. SOCIAL SESSION

ELLWOOD CITY, May 20.—Mrs. Mary Dominiella opened her home in Orchard avenue, in a gracious manner to members of the Senior C. D. A. society, last evening.

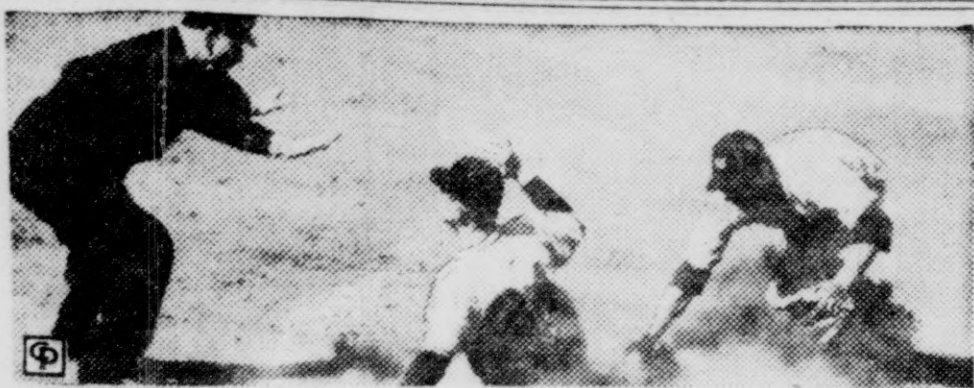

After several hours of play, the award for cards went to Mrs. Leo Scotchlas and the bingo prize to Miss Rose DeMauro. Mrs. John Kellner, Mrs. Joseph Bagosi and Mrs. John Mondell were associate hostesses and aided in serving a delicious lunch.

Another meeting will be held on Monday, June 16, at the home of Mrs. Tony Frisk, Beaver Falls road.

HEEZ SAFE!—And there's no doubt about it, either, as the umpire calls Hoag of White Sox safe during game in New York.

### Cardinals Are League Leaders

Gain Top Of National League And Never Leave Hotel Room, As Dodgers Flop

### BUTCHER PITCHES PIRATES TO WIN

By LAWTON CARVER  
International News Service Sports Editor

NEW YORK—May 20.—Steadily climbing, the St. Louis Cardinals today stood on the topmost rung of the National League ladder and left it to the rest to catch them.

They hit the top yesterday without leaving their hotel room. Idle in keeping with the schedule, the Cards advanced to first place when the Brooklyn Dodgers lost to the Chicago Cubs by 14 to 1. That's right—14 to 1. And it probably will still stick despite a protest by Manager Leo Durocher of the losers. He protested that game and the one of Sunday on the grounds that the Cubs roster included 26 men instead of the stipulated 25 for this point of the season.

The Dodgers lost by virtue of a nine run second inning, which included a home run by Claude Passeau with the bases loaded. Thus the latter contributed to his own victory as the Cub pitcher and he allowed only four hits, being deprived of a shutout by Babe Phelps' homer.

The Cincinnati Reds pounded out 14 hits to down the Boston Braves by 7 to 3. Johnny Vander Meer scoring his third victory of the year.

### Pirates Top Giants.

The Pittsburgh Pirates beat the New York Giants, 2 to 1, as Max Butcher turned in a four-hit performance against Carl Hubbell's six-hitter.

In the American League, the St. Louis Browns banged their way to a 5 to 1 victory over the New York Yankees. Denny Galehouse thus scored his third victory for the Browns with the aid of errors by Gordon and Crosetti.

But the league-leading Indians also went down to defeat again, losing to the Philadelphia Athletics, 5 to 4. Les McCrabb, rookie right-hander, scored the victory.

The Detroit Tigers scored their fifth straight win, beating the Boston Red Sox, 4 to 2, behind the four-hit hurling of Johnny Gorsica. The second place Chicago White Sox capitalized on the weakness of Vernon Kennedy to down the Washington Senators, 8 to 2.

### Connie Mack Wants More Night Games

### Owl Game Advocates Take Stance Because Of Drop In Attendance

(International News Service)

PHILADELPHIA, May 20.—Headed by Connie Mack, advocates of night baseball in the major leagues are agitating for more klieg clashes. This sentiment is prompted by a drop in daytime attendance despite the fact that employment has increased under the defense program. Apparently all plants are working full tilt and cannot afford to let employees take the afternoon off to attend ball games.

The minor league move to realize the value of night lights. As long as ten years ago night games were played at the Point Stadium, Johnstown. Now every town as a night set-up. It is almost an essential requirement in obtaining a franchise.

Mack's latest statement on the subject came last week when he returned from a swing around the American League. In Cleveland, Chicago and Boston the Athletics played before small crowds, Mack said. He pointed out that the poor attendance is not due so much to the low position of the Athletics as it is because "the fans are working." Mack predicted this season would be one of the worst financially if things keep on the way they are going.

### TEMPLE U. COACH FAVORS HELMETS

Pep Young, Temple's baseball coach, is in favor of helmets for players but can't understand why so many modern athletes get seriously injured. Young, a former big leaguer, said dusting off the batter was more common in his day but the damage was slight by comparison.

Last week, the Slippery Rock team, won the Allegheny College invitational meet, defeating W. & J., which had held the honors for two successive years. Bukoski led the team with a 78 round, followed by Dart and Nocera with 81's.

All four members of the team learned their golf on local public links, and were stars at the sport even before going to college.

### Leasure, Baxter Train For Bout

Rival Amateurs Rounding In to Shape For Titular Scrap

Russell Baxter and Les Leasure, local amateur middleweights are rounding into condition for their three-round battle which will decide the amateur middleweight champion of Lawrence county next Monday night in The Arena.

The Jefferson Athletic club is staging the boxing show for the benefit of the Fraternal Order of Police of this city. There will be eight bouts and every division, excepting the featherweight and bantamweight classes will be represented on the docket.

According to reports Baxter trains at six p. m. and one hour later Leasure takes possession of the Jefferson A. C. gymnasium. Although they formerly were training mates rivalry which was certain to result cropped forth and when Russ was defeated in his last bout in The Arena, Leasure's trainer requested that Les be given a chance at one of the nearest boxers the younger division of amateur middleweights has in this vicinity.

Sluggers On Docket There should be plenty of "sock-erino" distributed when Heavyweight George Morosky of Brownsville and Johnny Koval of Farrell meet and also considerable in the Billy Reale vs. Marion Klinz-smith bout.

Other bouts arranged follows: Johnny Watson, Vestaburg vs. Tommy Brockan, Warren, 147; Jimmie Edgie, Vestaburg vs. Billy Ferrick, Youngstown, 130; Larry Retardo, Ellwood City vs. Lloyd McKain, Warren, 135; Tommy Mageson, Farrell vs. Sammy Reschetti, Warren, 147 and Fred Conti, Farrell vs. Dennis Harvey, Warren, 112.

Tennis sharps claim Dick Sheen, California veteran, is looming as a threat to Don Budge and Fred Perry in the National Pro' jet tourney which will begin Saturday. . . . Ten more drivers have qualified for the Indianapolis 500-mile race, Memorial Day.

### SHORTSTOPS SNATCH SPOTLIGHT IN MAJORS

Headed by Phil Rizzuto, the Yankees' rookie shortstop, hold the spotlight in the majors this year. For some unexplained reason, good talent shows up in bunches at a different spot each season. Among Pennsylvania teams shortstop Arky Vaughan, Pittsburgh, is a veteran, but Bobby Bragan, Phils, and Al Brancato, A's, are youngsters.

Organized ball, besting the Cleveland Indians, after Johnny Babich left the mound. Tom Ferrick's the name.

What's happened to Larry MacPhail? It's almost a week since he picked up some new chatter for his pennant bound Brooklyn Dodgers.

With Mullins and Harris punishing that apple, Rip Radcliff, purchased by the Tigers to fill a supposedly weak link in the outer garden, is bench-warming until one of them cools down.

Baseball experts believe Johnny Babich may find the going rough this season. The Athletic flinger, winner of 14 triumphs last season, has been bothered with arm trouble since the start of spring training. He made his debut as a starter last Sunday. He had to retire due to the ailing whip.

Scribes who have been watching Madison Square fighters come and go, claim Lew Jenkins was the most appalling champ to ever crawl into the ring of the noted arena.

Musto Gusto and Dr. Bones, a pair of stablemates, have won four consecutive races, which sounds like a new record for a couple of nags basking under the same roof.

### HERE AND THERE IN SPORTS LAND

More than 2,000 Cleveland fans witnessed Sammy Angott, NBA lightweight king, outpoint "Boom Boom" Lenny Mancini, of Youngstown, in 10 rounds last night. . . . Pat Comiskey, Paterson, N. J. will box James J. Johnston, New York, in one of the bouts which will precede the Billy Conn-Buddy Knox fight for the Dapper Dans in Pittsburgh next Monday night. . . . Ken Silvestri, Yankee reserve hurler, was resting good today following an appendectomy in New York last night. . . . Geneva and Slippery Rock split in Beaver Falls, Monday. In tennis, Geneva won 7-0 and in golf, bowed, 6-3. . . . In baseball in Huntington, Juniata lost to St. Vincent, 12-8.

Lawrence County baseball loop teams will play two more games at 5:45 p. m. Wednesday but the outcome will not force Ellwood City out of first place, the champions of 1940, having already won three games while Bessemer runners-up for last year's flag have dropped to third place.

Ellwood City blanked Bessemer, Sunday, 1-0. Mid-season form was displayed by both teams. However, Wampum ran away with Hillsville. Errors had considerable to do with Hillsville's downfall.

The games card for Wednesday follows: Bessemer at Wampum and Hillsville at Ellwood City.

Standing	W	L	Pct.
Ellwood City	3	0	1.000
Wampum	2	2	.500

THE WINTER CO.

What's new in sports today? Ralph Ferrucci, stationed in Camp Croft, South Carolina, takes time out to state that he regretted reading about the Wampum White Sox departure from the Lawrence County League. The team quit the loop when Ferrucci, the head man, answered Uncle Sam's colors.

The soldier states that the team shouldn't disband because he has been summoned by the white whiskered gent. He'd appreciate it if we'd insert a plea to his boys to unload the flannels out of the trunks and get going on the diamond. "I still have White Sox power in me," Ferrucci concludes.

A few more classy exhibitions and ivory hunters will likely start combing the country side for a one Jake Saginich, Pulaski hurler. In his last two showings, Saginich has strung together a no-hitter (five-inning variety) and a one hitter. He struck out 35 batters in the two setos.

Last fall, "Bucky" Walters was bested in an exhibition game by a novice, Connie Mack, a bystander, was so impressed that he immediately signed the neophyte. Sunday the youngster recorded his first win.

### Elders Surprise; Trip South Hills

Hilliers Drop Slugfest, 11-10; Morella, Dean, Dando Pole Homers

In a free hitting brawl, the Elder A. A. bagged an 11-10 victory over South Hills, in a City-County Independent Baseball League clash played Monday night at South Hills. The Hilliers forged ahead 8-3 by the end of the second. With the aid of homers by Morell and Dean plus hits by McNicholas and Alexander, the Elders managed to squeeze out front. Dando paced the Hilliers with a homer and triple.

Score by innings: R. H. E. Elders ..... 302 42—11 10 4 Hills ..... 350 20—10 7 4 Batteries: Elders, Clever and Morella; Hills, Storia, Basile and Dando.

### Elders To Play West Side A. C.

West Siders Hope To Halt League Leaders, West Pittsburgh At Slovak Club Tonight

The feature game on the night's City Baseball League card will be at Marshall field when the West Side A. C. team will battle the league leading Elder A. C. team at 6 o'clock. The Elders have won three straight loop games, and hope to keep their string intact.

Manager Joe O'Leary will probably start Dick Witherson on the hill, with Schellkopf anxious to get a starting nod also. For the West Side either Bechtel or Fyle will be the assignment.

The West Pittsburgh "Gas House" gang will be down on the Chilton Plats field tonight to play the Slovak Club, with Manager Danny DeGonova having either Powell or Tonsetto to pick from as his starting heater. Manager Gonda will use big "Twee" Janoski on the hill.

Down on the Cedar Street field the undefeated Lawrence Indies will meet the Ryantown team, and will start either Savage or Majocha on the hill with Owy the likely Ryantown heater, and possibly Adams after the nice game that he hurled Sunday at West Pittsburgh. The Croton team will have the Moose as an attraction at the Croton field on Cascade street, and will pitch Stone at the start against Picato.

PETEY BEATS VET Petey Scalzo, NBA featherweight king, defended his crown in a 10-round fight with veteran Phil Zwick of Cleveland in Milwaukee, last night.

Love is dead when either party quits trying to conceal the things he is ashamed of.

Further Decline  
In Relief Rolls

HARRISBURG, May 20.—Expanding employment in private industry today brought further reductions in Pennsylvania's once top-heavy relief rolls.

The department of public assistance reported that 2,878 cases were cut from the dole during the week ended May 10 to force state aid to a new record low of 117,499 cases containing 276,594 persons.

"Approximately 67,000 of these cases consisting of some 177,000 men, women and children," the department stated, "contained one or more employable persons. The remaining 50,000 cases—composed of approximately 100,000 persons—contained no cases currently classified as employable."

Net expenditures for the week totaled \$658,929—a decrease of \$10,821 from the previous week's total.

## FROM ME TO YOU

### By MESEALL

In a couple of weeks a large class will graduate from the local High School. . . some will enter into business of one kind or another. . . some might join up. . . others will wait and if things are peaceful, go to college next fall. But whatever they do we hope they keep the true meaning of Freedom and the things that this United States stands for. . . Respect the Flag and think of the men who died so that we the people could enjoy the modern things that we are enjoying today. We have something here and every country in the world would like to have it. . . they couldn't enjoy it but they think they would enjoy destroying it.

United Service Organizations. . . become familiar with that group of words. . . it means that all the various creeds and nationalities are getting together in order to offer the men in training camps better and more complete entertainment for their "time-off".

This new recreation centers that will be built near camps and national defense industry will further the work that is being done by the men in the camps. . . And when you go down to see your son, husband or sweetheart, you will have a place to stay and he will have a place to entertain you. Religious service for those of different faiths will be fostered. . . There are hundreds of things that these new recreation centers will provide. . . Each and every man and woman in the United States is asked to give to this cause. . . we here in Lawrence County would like to raise about 14,000 dollars. . . if each person would dig down for a few cents, it wouldn't take long for this sum to be raised. More information concerning this campaign will be released within a few days. P. J. Flaherty is chairman of the county. . . watch for his words.

The Ne-Ca Novelty Company are distributing stock certificates this week. . . all you who bought stock here sometime ago, received a slip stating that you were a stockholder. . . this week you receive the official stock. You stockholders are welcome to attend any meeting of the company that you wish. . . they meet on Friday evenings. . . Their factory and office is at the rear of the Car Barns on Norris Way. . . why not stop down and see them some night. They have several products on the market. . . local stores are featuring them. Ask for a Ne-Ca Novelty Product.

## Stock Market Firmer Today

Few Sections Of Market Pick Up Point And More On Modest Buying Pickup

(International News Service)  
NEW YORK, May 20.—The stock market firmed today with a few sections chalking up gains of a point or more on a modest pickup in buying.

Improvement was largely the result of technical factors, with light short-covering helping the rise along.

Case was an individual feature, soaring 2 1/2 points on its first sale of the week. American Airlines and Douglas in the aviation section, along with Union Carbide and Du Pont in the chemicals, each advanced about a point.

Western Union was an active favorite, moving up a fraction to a new high for the year.

Steele, oils, rubbers, motors and electrical equipments generally showed modest improvement over previous closing levels.

There were a few laggards, including some of the rails, Columbia Gas & Electric at a new low, and tobacco shares.

## Miraculously Saved

Lieutenant Osipoff

Lieutenant W. S. Osipoff, United States marine corps parachutist, is pictured above in a San Diego, Cal., hospital, following the harrowing experience of dangling for a half-hour in the shrubs of his 'chute which had fouled in the tail of a Douglas military transport plane. Osipoff was rescued by two navy flyers who brought their plane into position so that he could transfer in mid-air to it.

Western Union was an active favorite, moving up a fraction to a new high for the year.

Steele, oils, rubbers, motors and electrical equipments generally showed modest improvement over previous closing levels.

There were a few laggards, including some of the rails, Columbia Gas & Electric at a new low, and tobacco shares.

# Choir Festival At Trinity Church

Sixteenth Annual Festival  
To Be Held Here Thurs-  
day Evening At 8  
O'Clock

## SEVERAL CHOIRS TO PARTICIPATE

The sixteenth annual festival of the choir of the Episcopal churches associated with the Shenango-Mahoning Valley Clericus, consisting of Episcopal churches on the border line of the states of Pennsylvania and Ohio, will be held in Trinity church, New Castle, on Ascension Day, Thursday, May 22, at 8 p. m.

The service will consist of evening prayer and special music, with Rev. Paul Schwartz, president of the Clericus, in charge of the service, assisted by Rev. Charles J. Burton. The music will be under the direction of Alfred Hamer, A. A. G. O., organist and choirmaster, Trinity Episcopal cathedral, Pittsburgh. Mr. Hamer, a graduate of the New England Conservatory of Music, studied with the famous French composer, Widor, in Paris, and was at one time organist and choirmaster of the Church of the Advent, Boston, Mass. Presiding at the organ will be Miss Isabel Johnson, organist and choir director, Trinity church, New Castle.

**Choirs To Be Present**  
The following choir will be present: Trinity and St. Andrew's, New Castle, who will be the co-hosts to the visiting choir, St. John's, St. Andrew's, St. Augustine's and St. Francis, Youngstown, O.; St. John's, Sharon; St. Paul's, Farrell; St. James, Boardman, Ohio; Christ church, Warren, O.; Church of Our Saviour, Salem, O. and St. Luke's, Niles, O. Upon their arrival they will be served a supper by the following joint committee: Trinity church, H. P. Meehan, Mrs. M. A. Johnson, Miss Nellie Ingram, Miss Isabel Johnson; St. Andrew's church, Mrs. Thomas J. Evans, Mrs. David Riley, Mrs. Chester Hetrick, Mrs. W. Donald Bader, William B. Howard, chairman of the music committee of Trinity

church, is general chairman, also a member of the choir, and has charge of the arrangements having a number of workers under his direction making complete plans for parking, ushering, room assignments and other details.

Of special interest is the fact that the first Ascension Day Choir Festival was held in New Castle, on Ascension Day, 1925, in Trinity church. The idea was originated by the late Rev. G. Goiding, then pastor of St. Andrew's church, New Castle. He and the Rev. P. C. Pearson, then rector of Trinity church, realizing the worth of the idea, arranged for the festival, and one has been held each year since in the various churches associated with the Clericus. At the first service there were over 400 present. Such well known people as Dr. Peter C. Lutkin, Rev. Frank Damrosch, Dr. Harvey Gaul and the Rev. Mr. Daniels have directed the music and lectured.

### Brief Addresses

This year Alfred Hamer will direct the music and lecture. Brief addresses will be made by the Rev. Paul Schwartz, and the Rev. Charles J. Burton, respectively, on behalf of the Clericus, and of the host church.

The psalm will be No. 24, and the scripture lesson will be the Ascension Day Gospel, St. Luke chapter 24, verses 44 to 53. The order of music is as follows:

Organ prelude—"Redset," Garth Edmundson, and "Largo," Handel.

Processions hymns—"Look, Ye Saints, the Sight Is Glorious," and "Hail, Thou Once Despised Jesus," Anthem—"Sanctus" (St. Cecilia Mass) by Ch. Gounod.

Soloist, tenor; C. H. Smyth, Trinity church, New Castle.

Anthems after Third Collect:

(a) "Save Us, O Lord," Ed. C. Bairstow.

(b) "Jesus, Joy of Man's Desiring," J. S. Bach.

Remarks and announcements.

Office hymns—"The Head, That Once Was Crowned," St. Magnus;

"Jesus, Lover of My Soul," Aberystwyth.

Offertory anthem—"The Ascension (the Redemption)," Ch. Gounod.

Duet—C. H. Smyth, tenor, and Franklin Rice, bass, Trinity church.

Antem—"To be sung as a closing prayer—"Now God Be With Us," A. Whitehead.

Recessional hymn—"Crown Him with Many Crowns," Diademata.

Postlude—Selected.

All music lovers and the general public are welcome to attend this choir festival, which is to the Episcopal church what the Gynanfu Ganu is to the Welsh people.
